53 People are drowning because jobs don't pay enough to live on. We need leaders who can live a day of our lives and make change for us, not for the richest who show up with the big money. We must help people here with affordable college, job training, and childcare. We must raise the minimum wage and make sure women get equal pay so working women and families can keep up with the cost of living. We need an economy here that works for working people and the middle class again, not just those with the big money. ....	34	27	15	24	1	61	38

54 President Obama has failed on the economy. The middle class is struggling with declining paychecks, high unemployment, and the rising costs of healthcare, college, and even a tank of gas. Bigger government, higher spending, and never ending deficits are not the answer. We need to repeal Obamacare, cut regulations, and lower taxes. We need to build the Keystone Pipeline and use our energy to create jobs and lower gas prices. We can bring back opportunity, balance the budget, and spark an economic recovery if we get big government out of the way. ....	30	22	14	33	1	<b>52</b>	<b>47</b>
