32 People are drowning because jobs don't pay enough to live on. We need leaders who can live a day of our lives and make change for us, not for the richest who show up with the big money. We must help people here with affordable college, job training, and childcare. We must raise the minimum wage and make sure women get equal pay so working women and families can keep up with the cost of living. We need an economy here that works for working people and the middle class again, not just those with the big money.	29	27	14	28	2	56	70	85

33 President Obama has failed on the economy. The middle class is struggling with declining paychecks, high unemployment, and the rising costs of healthcare, college, and gas. Bigger government, higher spending, and never-ending deficits are not the answer. We need to repeal Obamacare, cut regulations, and lower taxes. We need to build the Keystone Pipeline and use our energy to create jobs and lower gas prices. We can bring back opportunity, balance the budget, and spark an economic recovery if we get big government out of the way.	30	22	12	34	2	53	65	83

59 (NC ONLY)(EDUCATION) As Speaker of the North Carolina House, Thom Tillis passed a plan that cut five hundred million dollars from our local public schools, eliminated 9,000 teaching positions and froze salaries for North Carolina teachers, even though the state currently ranks 46th in teacher pay. And he used that money to help pay for more tax breaks for millionaires and big corporations.	41	23	12	21	3	64	76
