Q.38 Now I am going to read you some things lawmakers from different parties have proposed to deal with the economy.

**DEMOCRATS propose:**

- to protect Medicare and Social Security from any cut in benefits;
- to protect working women by ensuring equal pay to men;
- to help working mothers by providing 3 months of paid family leave, more paid sick days, and access to affordable childcare;
- to make college affordable by reducing student debt and providing free tuition at community colleges;
- to make sure jobs pay enough by raising the minimum wage to 12 dollars and empowering workers to bargain for better wages
- and to create millions of good paying jobs by investing in a long-term infrastructure plan.

**REPUBLICANS propose:**

- to cut taxes and regulations on businesses to create jobs;
- to build the Keystone XL pipeline which will create thousands of jobs;
- to cut welfare spending by cutting payments on those who refuse to work;
- to close our borders to protect workers from unfair competition from illegal immigrants who depress wages;
- to eliminate the 500 billion dollar a year deficit and pay down the 17 trillion dollar federal debt;
- and to repeal and replace Obamacare which costs our economy 716 billion dollars a year, is increasing insurance rates and gives small businesses an incentive NOT to hire more employees.

From what you know, which plan for the economy do you favor, the Democratic plan or the Republican plan?

Q.53 (WVWV) Now I am going to read you something DEMOCRATIC candidates are saying about the country and what needs to be done to make things better. Please tell me whether the statement makes you feel much more positive about DEMOCRATIC candidates, somewhat more positive, a little more positive, or not at all positive.

*We need a country that works for the middle class, not one governed by trickle-down economics. Today, jobs don't pay enough to live on and families and small businesses are struggling, yet CEOs and billionaires are using their lobbyists to write the rules so government works for them, not you. So, we should start by barring corporate and secret contributions and empower small donors. And we should make sure taxpayers get their money's worth and root out waste. Audit the federal government, simplify the tax code, and eliminate 1 trillion dollars of special interest breaks. Then, we can level the playing field for the middle class again. Protect Social Security against any cut in benefits. Make college affordable and cut student debt. Help working families with child care, paid sick days and equal pay for women. And increase taxes for the richest 1 percent so we can invest in infrastructure to create American jobs and modernize our country*

Please tell me whether the statement makes you feel much more positive about REPUBLICAN candidates, somewhat more positive, a little more positive, or not at all positive.

*After seven years of big government and weak economic growth under Barack Obama, we should recognize that the solution to the economy is not more government, but less. Our economy is being choked by regulations, beginning with Obamacare, which cost the country 716 billion dollars and 2.5 million jobs. Middle-income people and small businesses pay more and more of their money to the government, rather than using it to grow the economy. There are now 108 million Americans on some form of welfare or the other, many of whom just don't want to work. We have the highest corporate tax rate in the industrial world and then wonder why companies move overseas. We need to get government out of the way and give the innovators and entrepreneurs the freedom they need to rebuild the economy. We need to get our economy growing much faster by throwing out the corrupt tax code and lowering tax rates.*
